The Fast Way

It's Saturday morning. Ellen is going to meet her friends, Mandy and Jack, at the zoo.

"How do I get to the zoo?" Ellen asks her mother.

"You have to take the bus. First, walk up the street and turn right," her mother says. "Then, go over the bridge and turn left. You'll see the bus stop there."

Ellen walks to the bus stop and rides the bus to the zoo. It takes one hour. When she gets there, she's thirsty and tired. Mandy and Jack are waiting for her.

"Hi," Mandy says. "What took you so long?"

"I'm sorry. The bus was slow and hot," says Ellen.

"How did you get to the zoo?"

"We caught a taxi," says Jack. "It was fast and easy."

1. How did Mandy and Jack get to the zoo?

2. How does Ellen get to the bus stop?

3. How long does Ellen's bus ride take?

Lesson 3 Reading

| 1. Henry and Robert ride the bus to the aquarium. | True | False |
| 2. A man gives Henry and Robert directions. | True | False |
| 3. Robert leans against a large window. | True | False |
| 4. Robert sees the dolphins first. | True | False |

D Write.

It's in that direction. OK. Thanks. The soccer game? We're looking for
The amusement park? Thanks, anyway. Sorry, I don't know where it is.

the amusement park.

the soccer game.

E What about you? Write.

1. Were you ever lost? Did you ask someone for directions?

2. Have you ever seen dolphins? Where did you see them?

3. Where do you like to go with your friends on weekends?

Lesson 4 Sightseeing

A Write.

giant panda observe similar capital honor busy

1. Seoul is the _____ of South Korea.
2. New York is a _____ city where many people live and work.
3. I saw a _____ at Ueno Zoo in Tokyo.
4. A zebra is _____ to a horse.

B Read and write.

Skills Tip

Words on or below a picture are called captions.
A caption gives information about the picture.

Sightseeing in Paris

Tourists can walk up the stairs to the top of the Arc de Triomphe.

The Louvre Museum has many famous paintings, such as the *Mona Lisa*.

Paris is the capital of France. There are many interesting places to see there. The best way to see them is to walk!

You can start your walk at the Arc de Triomphe. To get to the Arc de Triomphe, take the subway to the Charles de Gaulle-Étoile station.

The Louvre Museum is one of the most famous art museums in the world. To get to the Louvre Museum, walk down the Avenue des Champs-Élysées from the Arc de Triomphe.

You can observe the Eiffel Tower from many places in Paris. To get to the Eiffel Tower, walk along the Seine River from the Louvre Museum. Then, walk over the Pont d'Iéna (the Jena Bridge). Enjoy sightseeing in Paris!

The Eiffel Tower is 324 meters tall.

1. What can you do at the Arc de Triomphe?

2. What famous painting is in the Louvre Museum?

3. How tall is the Eiffel Tower?

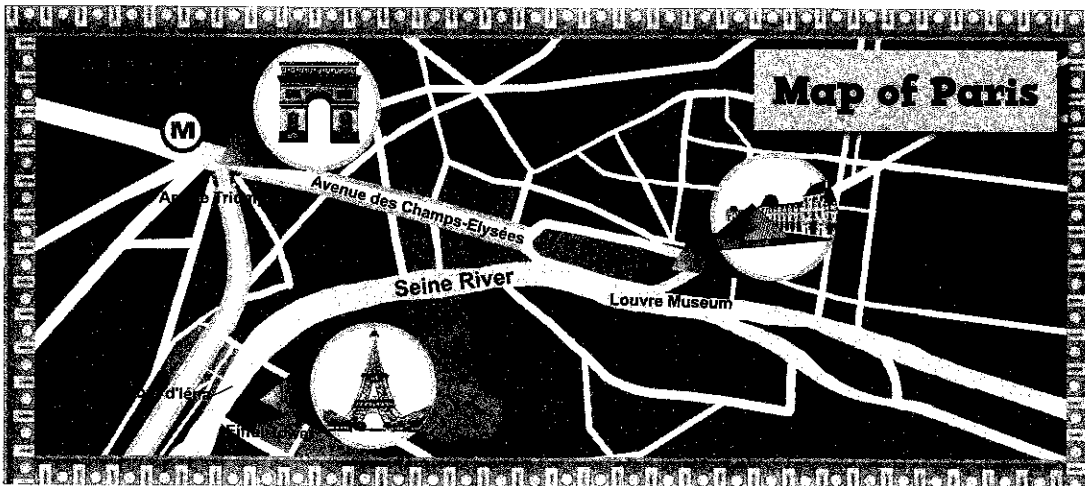

C Write.

1. Where can you start your walk in Paris?

2. Where can you observe the Eiffel Tower?

3. How do you get to the Eiffel Tower from the Louvre Museum?

D Look at **B**. Write.

1. How will you get to the Arc de Triomphe?

I'll take the subway to

2. How will you get to the Louvre Museum?

3. How will you get to the Eiffel Tower?

E Think and write.

When you are sightseeing, what are some ways that walking is better than taking the subway?

How to Check Your Answers

Good students always check their answers. How do you check them? Just use the opposite kind of math.

For example, you want to add $12 + 27$, and you think the answer is 39. How can you be sure? Use subtraction! $39 - 27 = 12$. Also, $39 - 12 = 27$. Your answer is correct!

Now, you want to do a subtraction problem. You think that $48 - 13 = 35$. How

Skills Tip

When you do a math problem, always check your answer.

can you be sure? Use addition! $35 + 13 = 48$. Your answer is correct!

This works with multiplication and division, too. You think that $3 \times 5 = 15$. How can you check? You know that $15 \div 5 = 3$, so your answer is correct.

Let's try division. You think that $24 \div 2 = 12$. How do you know it's correct? Just multiply 12×2 . Is your answer 24? Good job!

1. What kind of math do you use to check an addition problem?

2. What kind of math do you use to check a multiplication problem?

3. What kind of math do you use to check a division problem?

C Circle.

- | | | |
|---|------|-------|
| 1. Good students don't have to check their answers. | True | False |
| 2. You should use subtraction to check an addition problem. | True | False |
| 3. Addition is the opposite of division. | True | False |

D Answer the word problems. Then check your answers.

1. Mrs. Johnson's sixth grade class has twenty-eight students. Thirteen students are boys.
How many students are girls?

Answer: _____

2. Jenna orders six pizzas for her party. She cuts each pizza into eight slices. How many slices of pizza does she have?

Answer: _____

3. There are thirty-five days before Fred's birthday. How many weeks are there before his birthday?

Answer: _____

E Look at **D**. Write.

1. For the first problem, you should use
2. _____
3. _____

F Think and write.

Tom wants to go to the department store. First, he'll ride a bus. Then, he'll take the subway. The bus will take seven minutes, and the subway will take twenty minutes. How long will it take Tom to get to the department store? What kind of math did you use? How should you check your answer?

It will take Tom minutes

Review 1

My _____ when she
was my age, _____ couldn't.

A Read and write.

Julia Is Twelve

Now that Julia is twelve years old, she has more privileges. When she was eleven, she couldn't take the subway to her friend's house alone. Now she can! She can also invite friends over and have a party on weekends.

Julia has more responsibilities now, too. She has to help her mother cook dinner after school, and she has to read textbooks and type reports every night. Julia is very busy, but she likes being twelve. On Saturday, she'll take the train to an amusement park with her friends. She couldn't do that when she was eleven!

1. How does Julia get to her friend's house?

2. What can Julia do on weekends?

3. What will Julia do on Saturday?

B Circle the helping verbs and underline the main verbs.

1. Julia couldn't take the subway when she was eleven, but now she can take it.

2. I couldn't call you yesterday, but I can call you today.

3. My little sister can watch TV, but she can't watch scary movies.

C Write. Then circle the helping verbs and underline the main verbs.

What can you do on weekends that you can't do on weekdays?

E What about you? Write.

1. Do you like to walk slowly or quickly?

2. Do you walk to school from your house? How long does it take?

3. When you're tired, how do you like to relax?

Lesson 4 Paper Art

A Circle.

1. It isn't difficult to make a ^{century} ^{samurai helmet} out of paper.
2. Scissors and staplers are important ^{papyrus} ^{tools} in a classroom.
3. You must fold the ^{edge} ^{introduce} of the paper carefully.
4. The teacher will ^{introduce} ^{tools} origami to the students.

B Read and write.

Make a Snowflake!

In the art of origami, paper objects can be made without using tools. Another kind of paper art is snowflake making.

All you need to make a paper snowflake is a square piece of paper (and scissors)!

The art of making paper snowflakes started over a century ago. Today, people in many countries make paper snowflakes (often to celebrate different winter holidays).

Skills Tip

Words in parentheses () can give more information about something.

Paper snowflakes are usually made with white paper. The most popular paper snowflake has six sides (just like a real snowflake). Like a real snowflake, every paper snowflake is different from all the others.

To make a snowflake, you have to fold a piece of paper. You will also need scissors to cut the edges. So, get your paper and your scissors, and make some snowflakes!

1. What do you need to make a paper snowflake?

2. Why do people often make paper snowflakes?

C Write.

1. When did people start making paper snowflakes?

2. Can two real snowflakes be the same?

3. How many sides does the most popular paper snowflake have?

D Make a snowflake. Follow the steps.

Step 1

Fold a square piece of paper in half.

Step 2

Fold point A to point C.

Step 3

Fold point D to point B.

Step 4

Cut along the top to make a triangle.

Step 5

Cut shapes out of the edges.

Step 6

Open the snowflake carefully.

E Think and write.

If every student in your class makes a paper snowflake, will some of them look the same or will they all look different?

talent show wait signed up

The _____ (1) is tonight! Some of the students are wearing colorful _____ (2) and _____ (3) on their faces.

Danielle is nervous. She _____ (4) to act in a play, but now she can't remember her _____ (5).

"I know," says her friend Cindy. "I'll _____ (6) in the back. I can tell you your lines."

Danielle feels better. When the show starts, she remembers all of her lines!

Cindy is _____ (7). "Good job!" she says after the show. "Everyone is going to the pizzeria. Should I _____ (8) until you're ready?"

"No," says Danielle. "Just go _____ (9) me."

"OK," says Cindy. "See you there!"

B Match.

When the show starts, Danielle remembers all of her lines!

Some of the students are wearing colorful costumes and makeup on their faces.

"I know," says Danielle's friend Cindy. "I'll stand in the back. I can tell you your lines."

C Write.

1. What are some of the students wearing for the talent show?

2. Why is Danielle nervous?

3. Does Cindy tell Danielle her lines? Why not?

D Write.

Should I wait until you're ready? OK. See you there.
if you don't mind No, not at all. No, just go without me.

Yes

E What about you? Write.

1. Have you ever been in a talent show? What did you do?

2. Have you ever worn a costume for a play? What did it look like?

3. What do you do when you're ready to go, and your friend isn't ready?

Lesson 4 Water

A Write.

evaporation water vapor precipitation cycle condensation collection

1. The water _____ has four parts.
2. _____ happens when the clouds get very heavy.
3. When people use the water for drinking, it's the _____ step of the water cycle.
4. When hot water goes into the air as water vapor, it's called _____.
5. When water vapor gets cold and becomes clouds, it's called _____.
6. _____ is a gas, rain is a liquid, and snow is a solid.

B Read and write.

Kinds of Precipitation

Precipitation is the step of the water cycle when water returns to the earth. However, it doesn't always return as rain. There are other kinds of precipitation. What are they?

Snow is also a kind of precipitation. Snow is made in the air when water vapor turns into

How snow is made

How ice is made

ice. The ice turns into snowflakes and falls to the earth as snow. If you ski or snowboard, snow might be your favorite kind of precipitation!

Another kind of precipitation happens when water vapor turns into rain and the rain turns into ice. This ice can be very small, or it can be as big as a golf ball. Then it becomes very dangerous and can hurt plants and other living things.

Skills Tip

Diagrams help explain specific words and actions.

1. When snow is made, does water vapor turn into rain or ice?

2. When snow is made, does ice turn into rain or snow?

3. When ice is made, does rain turn into ice or snow?

C Circle.

- | | | |
|--|------|-------|
| 1. Water always returns to the earth as rain. | True | False |
| 2. Snow is a kind of precipitation. | True | False |
| 3. Ice that falls to the earth can be as big as a golf ball. | True | False |
| 4. Precipitation is when water becomes clouds. | True | False |

D Fill in the chart. Then write.

sunscreen before we _____.

A Read and write.

Life in Paris

Jerry is an American boy, but he has been living in Paris with his family since he was eight. Jerry really likes Paris. He has been playing the saxophone for four years. "Paris is a great place for musicians," he says. "Sometimes I play in the park. People stop and listen!"

Jerry has many hobbies in Paris. He likes mystery novels, and he often reads them at an outdoor cafe. He's been playing tennis here for a long time, too. "I'm always outside," says Jerry. "I'm going to the store today because I need more sunscreen!"

1. How long has Jerry been playing the saxophone?

2. Where does Jerry often read mystery novels?

3. Why is Jerry going to the store?

B Circle the words after *for*. Underline the words after *since*. Then rewrite using the other word.

1. Kim is twelve. She has been living in Paris since she was eight.

Kim has been living in Paris for four years.

2. Josh has been collecting comic books for a long time. He started when he was six.

3. I've had a smartphone since June, and now it's September.

C Answer the question in two different ways. Circle the words after *for*. Underline the words after *since*.

How long have you known your best friend?

Meeting Ashley

Rachel walks over to Ashley's house on Sunday afternoon. She sees Ashley's brother Tom in the yard.

"Hi, Tom," she says. "Where's Ashley?"

"She isn't here. She said that she was going to the mall," says Tom.

"Did she say that she was going to the art gallery, too?" asks Rachel.

"I don't know," says Tom. "I'll ask my mom." Tom goes into the house. Two minutes later, he comes back outside.

"What did your mom say?" asks Rachel.

"She said that Ashley was going to the mall, and then she was going to meet you at the art gallery at three o'clock."

"Great!" says Rachel. "Thanks, Tom!"

1. Where is Ashley when Rachel comes to her house?

2. Did Ashley say that she was going to the pet shop?

3. Where is Ashley going to meet Rachel?

Lesson 3 Reading

A Write.

stamp pocket envelope

Lesson 4 The Human Body

A Find and circle.

bone
muscle
ligament
tendon
support
protect

B Read and write.

The Bones of Your Hands and Feet

Your hands and feet can do amazing things, and you can thank your bones for that. Each of your hands has twenty-seven bones, and each of your feet has twenty-six bones! Muscles, ligaments, and tendons work together with those bones to help you work and play.

Your hand bones help you play the piano and shake hands with a friend. Because of your hand bones, you can hold a pencil, use chopsticks, and make a model.

Skills Tip

Looking up a word in a dictionary helps you to remember it better.

Your foot bones help you stand, walk, run, and kick.

Because of your foot bones, you can play soccer and many other sports.

Our hand and foot bones are strong, but we still need to protect them. Wear sports shoes and gloves when you play some sports.

1. What comes first in a dictionary, the word *muscle* or the word *ligament*?

2. Will you find the word *bone* near the front or the back of the dictionary?

3. Is the word *tendon* before or after the word *tennis* in the dictionary?

C Write.

1. Which has more bones, your hand or your foot?

2. What should you wear to protect your hands and feet?

3. How many bones do two hands and two feet have?

D Fill in the chart. Then write.

~~play the piano~~ hold a pencil run
use chopsticks stand kick

Sports and activities you can do because of your . . .			
Hand bones	<u>play the piano</u>	_____	_____
Foot bones	_____	_____	_____

1. What sports and activities can you do because of the bones in your hands?

I can

2. What sports and activities can you do because of the bones in your feet?

E Think and write.

Four fingers on your hand have three bones, but your thumb has two bones. Four toes on your foot have three bones, but your fifth toe has two bones. Which toe do you think has two bones, your big toe or your little toe? Why?

B Read and write.

Let's Recycle!

Many of the items we use can be recycled. Whenever we recycle, we reduce pollution. Here are some items that you can recycle every day.

Paper

People use a lot of paper. We can now recycle old paper to make new cardboard, books, and magazines. Recycling paper also saves trees!

Plastic

Many drinks come in plastic bottles, and many items that we buy come in plastic bags.

Skills Tip

A large topic such as pollution is often arranged into categories (example: land, air, and water).

We recycle plastic bottles and bags to make clothing, toys, and other things.

Glass and Cans

We recycle used soda cans to make new soda cans. We recycle glass bottles to make new glass items. We also recycle glass bottles to make new roads!

The next time you use paper, plastic, glass, or cans, recycle them. You'll make the Earth a more beautiful place.

1. Is a magazine made of paper, plastic, or glass?

2. What plastic items can we recycle?

3. What can we make when we recycle glass bottles?

C Circle.

- | | | |
|--|------|-------|
| 1. Whenever we recycle, we reduce pollution. | True | False |
| 2. Recycled paper can make new roads. | True | False |
| 3. We recycle plastic to make clothing. | True | False |
| 4. Recycling paper saves trees. | True | False |

D Recycle the items. Then write.

~~magazines~~ glass bottles plastic bottles
soda cans cardboard plastic bags

1. What happens when we recycle plastic bags?

Whenever we recycle plastic bags, we reduce pollution.

2. What happens when we recycle cardboard?

3. What happens when we recycle soda cans?

E Think and write.

In many supermarkets, you can ask for plastic bags or paper bags. A third choice is to take your own shopping bags. Which do you think is the best choice? Why?

Review 3

A Write.

1.

_____ is your younger brother?

He's the one _____ pizzeria.

environment, plant a garden.

4. If we _____ bags,

we'll conserve energy.

That's true. We'll _____ if we

take _____, too.

A Read and write.**The Walking Club**

Albert and Linda have started a walking club. They want to help the environment, so they're walking everywhere for one month.

The club started two weeks ago, when Linda said that she was walking to the mall. "I said that it was too far to walk," says Albert. "Then I tried it with Linda. It was fun!"

Now, there are four students in the club. Linda has taken many pictures. "In this picture, we're walking to school in the rain," she says. "Albert is the one who is holding the red umbrella. And in this picture, we all walked to the pizzeria. I'm the one who is eating the biggest piece!"

1. What did Linda say two weeks ago?

2. What are Albert and Linda doing to help the environment?

3. In the picture at the pizzeria, which one is Linda?

B Underline the word *who*. Draw an arrow from *who* to the name or names. Then rewrite.

1. Albert is the one who is holding the red umbrella.

2. Albert and Linda are the ones who started the walking club.

3. Linda is the one who has taken many pictures.

C Write two sentences using the word *who*. Underline the word *who*. Then draw an arrow from *who* to the name.

B Read and write.

Carbon

Carbon is very important in our world. All living things are made of carbon, including us! Plants, animals, and people are about eighteen percent (18%) carbon.

Where does carbon come from? All carbon came from stars like our sun. On Earth, plants get the carbon they need from the air. Animals and people get the carbon they need by eating plants or other animals.

Skills Tip

A question and its answer will have the same verb tense (past, present, or future).

Most of Earth's carbon is under the ground. It comes from ancient plants and animals. People use this carbon for energy to heat homes and to power cars, trucks, and planes. Then it goes back into the air. Too much carbon in the air can be bad for our planet. We need to use carbon carefully.

1. How much of a plant is carbon?

2. Where did all carbon come from?

3. What do people do with the carbon that is found underground?

C Circle.

- | | | |
|--|------|-------|
| 1. Plants, animals, and people are made of carbon. | True | False |
| 2. Animals get the carbon they need from the air. | True | False |
| 3. Most of Earth's carbon is under the ground. | True | False |

D Match.

- | | |
|---|---|
| 1. Carbon is found in the air. ● | ● It is used by people for energy. |
| 2. Carbon is found in plants and animals. ● | ● It is used by plants to live. |
| 3. Carbon is found under the ground. ● | ● It is used by animals and people to live. |

E Look at **D**. Write.

1. Where can plants find the carbon they need to live?

They can find it

2. Where can animals and people find the carbon they need to live?

3. Where can people find the carbon they need for energy?

F Think and write.

After people use carbon to heat homes and power cars, the carbon goes into the air. Scientists are worried that there is too much carbon in the air, which can make Earth too warm. However, plants and trees take carbon from the air. So, what are some things that we can do to reduce the carbon in the air?

Review 4

A Write.

1.

Michelangelo's _____ are

_____ here.

Whose symphonies _____ here?

_____.

2. When was the _____?

It _____ in 2003, and it _____

_____ 2008. The Oliveira Bridge

was _____ in 2008. That means it was
constructed in five years!

3.

This year the speech _____, but

last year _____ boring.

The performance is interesting _____, and it

will be _____

next year.

4. What _____ now?

I'm sending _____.

What _____ all day?

I've been posing _____.

A Read and write.

A Time to Celebrate

It's graduation day at school! Yesterday, the parents baked cupcakes and bought presents. The students cleaned their classrooms and put up all the decorations. Now everything is ready.

The graduation ceremony is wonderful. The students' performance is very interesting. The speeches are more interesting than last year.

Tomorrow, many of the families will have graduation parties at their homes. Students will open presents and pose for pictures. Relatives and friends will come to visit. Graduation is a time to celebrate and a time to remember!

1. What did the parents do yesterday?

2. What will many of the families do tomorrow?

B Underline the verbs. Circle the tense. Then rewrite in a different tense.

1. Our relatives will come in the afternoon, and they will leave in the evening.

past present future

2. We usually eat pizza on Saturday night when we watch a movie.

past present future

3. The students cleaned the classrooms, but the parents baked the cupcakes.

past present future

C Write. Underline the verbs. Circle the tense.

Write a sentence about yourself. It can be about the past, the present, or the future.

past present future

Grammar Guide

Verb Tenses

There are twelve verb tenses. All verb tenses represent time.

Simple Present:	expresses a habitual or repeated action, or a constant state of being <i>I eat an apple every day at one o'clock.</i>
Simple Past:	expresses an action that took place at one point in the past <i>I ate an apple yesterday.</i>
Simple Future:	expresses an action that will (or is planned to) take place at one point in the future <i>I will eat an apple tomorrow.</i>
Present Progressive:	expresses an action that is ongoing at the present time <i>I am eating an apple now.</i>
Past Progressive:	expresses an action that was happening at a specific time in the past <i>I was eating an apple at one o'clock yesterday.</i>
Future Progressive:	expresses an action that will be happening at a specific time in the future <i>I will be eating an apple at one o'clock tomorrow.</i>
Present Perfect:	expresses a completed action that began in the past and is still true today <i>I have eaten an apple every day this year.</i>
Past Perfect:	expresses two completed actions, one of which happened earlier than the other <i>I had eaten a banana every day before I switched to apples.</i>
Future Perfect:	expresses an action that will be completed by a certain point in time <i>I will have eaten 365 apples by the end of this year.</i>
Present Perfect Progressive:	expresses an action that began in the past but is still happening now <i>I have been eating this apple for five minutes.</i>
Past Perfect Progressive:	expresses two actions which happened in the past, one of which happened earlier than the other. The older event was the one in progress at that time. <i>I had been eating bananas every day before I switched to apples.</i>
Future Perfect Progressive:	expresses an action that will be completed by a certain point in time <i>I will have been eating apples for a year on December 31st.</i>

Write the tense. Then rewrite in a different tense.

- The students are studying at the library now. _____
_____ past progressive
- We have gone to the beach every summer since I was born. _____
_____ present perfect progressive

3. Sam and Jeff read a lot of books about animals. Then they went to the zoo. _____
_____ past perfect
4. Kelly plays tennis three times a week. _____
_____ future progressive
5. Lee will have written his essay by Friday. _____
_____ simple future
6. They will have been playing video games for three hours when it's seven o'clock. _____
_____ past perfect progressive

Sentence Structures

There are four types of sentences.

Simple: expresses a complete thought and contains at least one subject and one verb
I like baseball.

Compound: contains two independent clauses, which are separated by a coordinating conjunction
I like baseball, but my cousin likes soccer.

Complex: contains an independent clause and at least one dependent clause, connected by subordinating conjunctions
I like baseball because it is an interesting game.

Compound-Complex: contains a compound sentence plus at least one dependent clause, connected by a subordinating conjunction
While we both like sports, my favorite sport is baseball, but my cousin likes soccer better.

Grammar Tip

And, or, but, nor, for, and yet are **coordinating conjunctions**.

Some **subordinating conjunctions** are *because, since, until, when, and while*.

Grammar Tip

An **independent clause** has a subject and a verb, and it can stand on its own as a complete sentence.

A **dependent clause** also has a subject and a verb, but it doesn't make sense by itself.

Circle.

1. John wanted to go swimming, but the pool was closed.
(A) simple (B) compound (C) complex (D) compound-complex
2. After they watched a movie, Jenny and Allison caught a taxi to the mall.
(A) simple (B) compound (C) complex (D) compound-complex
3. Our team won the game.
(A) simple (B) compound (C) complex (D) compound-complex
4. Tom liked the performance, but Ellen went home because she thought it was boring.
(A) simple (B) compound (C) complex (D) compound-complex

Modals

Modal verbs are a kind of auxiliary, or helping, verb. They must be used with a main verb. Modal verbs have a range of meanings and can sometimes be tricky.

Used to express a possibility or an option: can, may, might
You **may** want to study harder next time.

Used to express ability: can, able to
*I **can** play tennis.*

Used to express a strong suggestion: should, ought to
*You **should** brush your teeth at least twice a day.*

Used to express a need: must, have to
*You **must** complete this form to go to summer camp.*

Underline the modal verbs. Then write how they are used.

1. It might rain later. possibility
2. You should help your grandmother carry her bags. _____
3. Our English class must write a book report for Monday. _____
4. We can either go to the pool or the beach. _____
5. Can he speak French? _____

Active and Passive Voice

Active voice is much more common than passive voice and sounds stronger. Use passive voice when the object is more important than the subject.

Active Voice: The subject is the “doer” or source, and the object is the “receiver” or outcome.

S O
Thomas Edison invented the light bulb.

Passive Voice: The subject is the “receiver” or outcome, and the “doer” or source becomes part of a prepositional phrase. There is no object.

S prepositional phrase
The light bulb was invented by Thomas Edison.

Write the voice. Then rewrite in the other voice.

1. The workers repaired the building. _____

2. The mail was delivered at noon by the postal worker. _____

Direct Quotes and Reported Speech

Direct Quote: is the exact language said by the person who said it. It needs quotation marks (" ") on either end.

"The bus stop is on the corner," said my tour guide.

"Could you help me?" asked Sally.

Reported Speech: is a "report" or retelling of what someone else said. It does not need quotation marks, and often begins with *that* for statements or *if* for questions.

*The tour guide said **that** the bus stop is on the corner.*

*Sally asked **if** I could help her.*

Remember to change the pronouns since you are the reporter!

Rewrite in the other form.

1. Emily said that she wanted to go to the movies tonight.

2. Joe asked if he could borrow my book this weekend.

3. "Your homework today is Workbook page 50," our teacher said.

4. My mom said, "You should be home at seven o'clock for dinner."

Relative Clauses

Relative clauses work like adjectives, but they have a subject and verb and come after the noun they are describing. They usually begin with a relative pronoun, such as *who*, *which*, or *that*.

Who: use with people

The girl who is kicking the ball is my best friend. The relative clause answers "Which girl?"

Which and that: use with things or places

The jacket (that) I want is over there. The relative clause answers "Which jacket?"

Remember, sometimes "that" is omitted from the relative clause.

Unscramble.

1. _____
on sandwich I want the that is left the
2. _____
flowers best my likes that the mom the roses are
3. _____
is sister girl who the wearing T-shirt the purple is her

Conditionals

A conditional statement is one that uses "if" to express a condition in order for something to happen. "Then" is often used with the outcome of the "if" clause.

- Zero Conditional:** Shows a general truth or a fact. Use simple present with both the *if* clause and the *then* clause.
If my mom asks, then I tell her.
- First Conditional:** Shows something that is possible or likely to happen. Use simple present with the *if* clause and simple future with the *then* clause.
If my mom asks, then I will tell her.
- Second Conditional:** Shows something that couldn't or didn't happen. It is not possible or likely to happen. Use the simple past with the *if* clause and the modal verb "would" with the *then* clause.
If my mom asked, then I would tell her.
- Third Conditional:** Shows something in the past that didn't happen. This can also be used for something that was impossible in the past. Use the past perfect with the *if* clause and "would have" with the *then* clause.
If my mom had asked, then I would have told her.

Write sentences using each of the conditionals.

it's sunny / go to the park

1. If it's sunny, then we go to the park.
2. _____
3. _____
4. _____
